OF UTAH

—ooOoo—

UTAH.
Notice is hereby given by the Division of Oil, Gas and Mining of its tentative decision to approve the Large Mining Operations Notice of Intention for Interpace Industries, Inc.'s Henefer Red Clay Mine. Mining activities will affect the following area: Portions of the NE1/4 of Section 34, Township 4 North, Range 4 East, SLBM, Summit County, Utah.

Interpace Industries, Inc.

manent structures on site. When fuel is stored on site, it will have secondary containment with a capacity of 110% of the storage tank to contain any spill that may occur. There is no public vehicle access to this site due to the area being managed as part of the Henefer Wildlife Management Area and is behind locked gates.

After Operations: The access road (3.5 acres) will remain for access to the site property.

The person representing the company is Mr. Aaron Hancock; Phone (801) 782-7933. Interpace Industries, Inc. is fulfilling obligations under the Utah Mined Land Reclamation Act of 1975, Utah Code Ann. §40-8-18.

Any person or agency aggrieved by this tentative decision to issue approval is hereby requested to submit a written protest within thirty (30) days of the date of publication to Mary Ann Wright, Associate Director of Mining Di-

IN THE MATTER OF
TENTATIVE DECISION
TO APPROVE A LARGE

SECTION 34,
TOWNSHIP 4 NORTH,
RANGE 4 EAST, SLBM,
SUMMIT COUNTY,

has submitted a permit application to expand an existing small mining project to a large mining operation. The operator will employ the following mining and reclamation techniques on approximately 17.9 acres of private land.

During Operations: The mining will consist of pushing the clay material down a natural slope with a dozer where it is transported by a front-end loader to a vibrating or rotary screen. The screen separates the clay from the rock fragment and is loaded onto trucks and shipped to the brick-making facility in Ogden. The screened rock is stockpiled on site until sold. Topsoil/overburden material are stripped and stockpiled for reclamation prior to removal of the clay. There are no per-

the private property. The life Resources employees and fire crews to access the Henefer/Echo Wildlife Management Area. No slopes steeper than 30 degrees will remain. All areas will have topsoil or amended soil resources replaced at a depth of 8-10 inches. All areas to be seeded will be amended with 10-tons per acre of composted manure. All disturbed areas will be ripped to a depth of 18 inches to alleviate compaction. The ephemeral drainage will be re-established through the reclaimed area. The channel will average 10-15 feet wide and 3-4 feet deep. The site will then be revegetated in the fall by broadcasting an approved seed mixture designed to provide quality winter forage for big game species.

vision of Oil, Gas and Mining, 1594 West North Temple, Suite 1210, Box 145801, Salt Lake City, Utah 84114-5801, setting forth factual reasons for the complaint. If no responsive written protests are received by the Division within 30 days after the last date of publication, the tentative decision of the Division will be final.
